EXPERIENCE

SDTH - [SDTH](#)

March 2020 - Present

San Diego Tech Hub is a local community-organized event where developers meet to connect with other developers. The local scene contributes as a community to the technology sector by making sure that tech companies and tech people have a chance to work together.

Zero TO Mastery - [ZTM Open Source](#)

February 2021 - Present

Students are encouraged to contribute to Zero To Mastery open-source Github. The projects are meant to be practiced and you are allowed to make your contribution to the repositories. It's meant to simulate a real-world environment as a way to gain experience, collaborate with your code and learn the Github environment.

EDUCATION

Zero To Mastery Academy, — [Certificate](#)

April 2020 - Present

Advocate for students to become a 'self-taught developer' by mentoring and coaching them on their path by reviewing over 100,000 lines of code during one of the 60+ sessions. Answered a variety of questions ranging from vanilla JavaScript to what employers expect. Topics included: React, React Native, HTML5, CSS3, Babel, ES6+, & best practices.

Free Code Camp - Certificate

February 2020 - Present

Online platform for students to learn web development and do multiple projects from scratch from high proficient instructors that have been developers in the field and have built high-quality courses. Udemy is where you learn mobile responsive and visual design technologies. Currently I am using HTML5, CSS3, SCSS, ES6, React.
